KEYMACRO is a powerful, lightweight and portable utility that allows you to hide a window. The program can be configured to show the icon in the taskbar at any preferred position. KEYMACRO can be used to start a desired application in a separate window or hide all windows. Additionally, KEYMACRO supports multiple accounts and allows you to control them separately. KEYMACRO is useful for system security and privacy, as it does not write to the Windows Registry. Users who use the compact Portable UltraHide utility should keep in mind that there is no facility for implementing an in-window user-defined hotkey. Portable UltraHide is a software that can be downloaded for free. Is this what you were looking for? Make sure you check out other keymacro software in our software catalog.
