We make it easy to plot your data in shape of chart, bar chart, pie chart, dot chart, line graph, timeline chart, etc. You can even export the graph to PNG, PDF, or SVG, saving it as a file. IMPORTANT: Please be sure that you have cleared all the plots you are about to plot on your spreadsheet, in case they are not displayed in the spreadsheet. ZenPlot supports for the following chart types: • Pie charts • Bar charts • Line charts • XY-Scatter charts • X/Y-bar charts • Line and bar charts • Histograms • Box plots • Dot plots • Timeline charts • Radar charts • Groups • Trees • Line and bar plots • Stacked bar plots • XY scatter plots • Frequency plots • Images • Symbol plots • Pictures • Color schemes • Gridlines • Object options • Hover effects • Zooming and panning Important: We are not affiliated with any of the companies mentioned above. There is no promotion code in any purchase. All reviews on ZenPlot are written by individual users, and are not edited by our staff. Charting and visualization works better if you have Microsoft Excel 2016 for Windows, Office 365 subscription, or Microsoft Office 2016 for Windows, Office 365 subscription. If you need any help or have any problem, please contact us at . For support questions, please visit the our FAQ page: Note: ZenPlot 2.0 will be available for iOS soon.
