# Age.of.Empires.II.HD.Patch.v 2.6-RELOADED Repack [UPD]

---

i forgot this topic was here, sorry. and it will be until the first time i am hit by my many sins (and i am not even jedi). as i promised, i am going to do my best to correct some bugs that i can find (if not many) and update the game. to ease my task, i decided to repack the game. you will need aoerii.sys in the root of the disk (just a \*.sys). it is simply a dos game and the patch (read below) is just a dos line (even if i just used a bash script for it..). now the bug that i found. looking at the patch file, i noticed that there was a section with the name "getpc" and it was simply blank.. so i decided to add some code to it and removed the size of the "getpc" section and added the size of the 2 versions of "getpc" and that was it. this is a patch disrupted by blizzard and has been relaunched as its first patch with extra map markers. please, read the readme file for more information. patch description: this patch adds
